

# GREEN. EFFICIENT. SUSTAINABLE.

## Talking LNG as marine fuel in Gothenburg

The LNG Conference 2019 concluded in Gothenburg, Sweden. The event held on 27-28 May, 2019, gathered an engaged crowd and an impressive speaker line-up, providing the audience with an in-depth market overview, reports from ship operators who opted for LNG as marine fuel, as well as a closer look at some interesting, new tech solutions.

The event concluded with a trip to Swedegas' LNG bunkering facilities, located in the Port of Gothenburg. Participants had the rare chance to visit the truck unloading station and the distribution station at the jetties.
